Auckland Breast Centre is a comprehensive breast health centre dedicated to providing personalised care, advanced breast imaging and diagnostics along with specialised surgical solutions where required.

With two clinics on the North Shore we have increased appointment availability with screening appointments in a matter of days.

Auckland Breast Centre's advanced tomosynthesis technology offers a clearer, more detailed 3D view of the breast, helping detect breast cancer earlier.

Whether you're a new patient due for a routine mammogram, or simply want peace of mind, the wonderful Auckland Breast Centre team is here to support your breast health journey.

## Our Team of Breast Care Experts

### Mammography and Sonography

Our experienced mammographers and specialised breast sonographers use the latest screening technology to ensure every mammogram and ultrasound is thorough, gentle, and accurately interpreted.

### Radiologists

Our specialist breast radiologists bring decades of diagnostic experience. With advanced imaging tools and expert judgement, they detect even the smallest changes—helping you feel confident in your results.

### Breast and Oncoplastic Surgeons

With over 50 years of combined experience in both public and private care, our breast surgeons use techniques to optimise your surgical outcome, while helping you maintain confidence in your body.

### Plastic Surgeons

Working closely with our surgical team, our plastic surgeons offer tailored reconstructive options. Their goal is to restore form and function with empathy, aesthetic skill, and understanding.

### Breast Care & Plastics Nurse Team

Our dedicated nurses provide continuity of care throughout your journey. They're here to offer expert clinical guidance, emotional support, and practical advice with warmth and professionalism.

### Radiation Oncologist

If breast cancer is diagnosed, our radiation oncologist works alongside the wider team to develop a personalised treatment plan—ensuring seamless, integrated care within the Canopy Healthcare network.
